Parent/Carer Evaluation 2021

Oakfield Lodge School have undertaken a Parent/Carer survey in order to establish the views of our parents and carers, and gain essential feedback to help in the ongoing development of our education provision.

We asked parents and carers a series of questions ranging from “the partnership between home and school”, “building resilience, independence and coping skills”, to “supporting student’s learning” and most recently access to learning during lockdown.

The graphs reflect the feedback we received in terms of satisfaction ratings across each question for those surveyed.

Parents and carers also shared:

“good communication”

“much improved, coping well, and is much more resilient”

“you’ve catered for him well”

“you always feel listened to”

“Excellent work being set and great communication”

“No complaints whatsoever – perfect”

“We can see how you work with him and how you develop him”

“It’s amazing how he is getting on...he’s happier and you don’t just help him, you have helped us as a family too”

“My son hasn’t missed anything because of lockdown – you turned work and resources around so fast; day after day on-line supporting him and us with everything we need”
